CONSUMABLES

MADE IN ITALY

Ecological detergents - Deodorant - Anti-scale

A consumables range **designed specifically by Polti.** Intended to prolong the life of the products and to guarantee the best results of cleanliness and hygiene whilst respecting all surfaces and the environment.

Bioecologico

Product based on natural substances that prevents foaming in the tank of Vaporetto Lecoaspira and Forzaspira Lecologico spreading a pleasant clean perfume in the air.

Kalstop

The anti-scale product that prevents limescale build-up. Improves the effectiveness of steam and prolongs the boiler life of Polti products.

FrescoVapor

Home deodorant that contains natural elements. Combined with steam it releases a fresh scent in every room and, thanks to its special composition, is able to capture odours.

Frescoaspira

Home deodorant mat. Placed on HEPA filter, it gives a fresh fragrance in the house that persist over time.

Frescoglass

Concentrate solution to clean and degrease glass. Does not leave streaks and gives an added sparkle to glass and surfaces around the home.
