120 min runtime

FC9905/81

Unsurpassed cleaning performance

with 7 cleaning modes for the ultimate result

Philips SmartPro guarantees high cleaning performance every day. With its integrated camera, sensors and software, it maps your rooms for maximum coverage while 7 cleaning modes ensure a thorough clean of your floor.

Outstanding cleaning results

- Revolutionary 4-stage cleaning system for a thorough clean
- Advanced SuperMop cleans even the finest dust

Intelligent performance

- Systematic Mapping to clean where the robot can enter
- 7 cleaning modes to clean exactly the way you want
- Built-in infrared sensors detect and avoid obstacles
- Auto return to the base station for recharge

Just press Play for a clean floor

- Your floors are cleaned at a push of a single button
- Easy programming for cleaning when it's convenient for you
- Daily scheduling for a 100% hassle-free cleaning

PHILIPS

Robot vacuum cleaner with Systematic Mapping
Systematic mapping 4-stage cleaning system, SuperMop, 120 min runtime

FC9905/81

Highlights

4-stage cleaning system

Stage 1: Side brushes sweep the dust into the path of the robot. Stages 2 and 3: Powered main brush and suction remove dirt and dust from the floor. Stage 4: SuperMop adds the finishing touch by collecting the finest dust and trapping it in the microfiber pad.

SuperMop

Advanced SuperMop cleans even the finest dust.

Systematic Mapping

Systematic mapping ensures the robot will clean everywhere it can enter, recording where it has already been and where it still needs to go. It will cover your complete floors where it can reach without missing a spot.

7 Cleaning modes

1.AUTO: The robot uses its integrated camera and software to navigate around the house. It records where it has already been and where it still needs to go. 2.RANDOM: The robot drives randomly through the house. 3.MOP: The SuperMop will pick up even the finest dust. 4.CLIMB: Special mode to cross thresholds and carpets up to 20 mm. 5.MAX: Ultimate cleaning performance combining Auto and Random modes 6.SPOT: Zigzag cleaning an area of 1.5x1.5m. This mode is optimized for small areas such as your kitchen. 7.MANUAL: Use the remote control to drive the robot to where you want it to clean

Built-in infrared sensors

The robot has built-in infrared sensors in the bumper taking care around your furniture and stairs.

Auto return to the base

Auto return function allows the robot to return to its base station after the floor is clean so it is always ready.

Clean at a push of a button

Your floors are cleaned at a push of a single button.

Easy programming

Simply press the “Play” button to have the robot clean your floors right away or program it to clean while you are away. Use the Daily Scheduling to keep your floors clean daily: 100% hassle-free cleaning.

Daily scheduling

The robot cleans your floors every day by itself.

Specifications

Accessories included
- Cleaning brush
- Entrance prevention strip
- Filters: 2 pcs
- Microfiber Mopping Pad: 2 pcs
- Remote Control
- Side Brush: 2 pcs
- SuperMop
- Docking station

Design
- Color: Gold

Filtration
- Dust capacity: 0.6 L

Performance
- Cleaning speed: Up to 60 m²/h
- Battery voltage: 100-240 V
- Runtime: 120 minute(s)
- Charging time: 1,6 hour(s)
- Input power (max): 40 W

Usability
- Cleaning modes: 7
- Programming
- Threshold climbing: 20 mm
- 24-hour scheduling
- Delayed cleaning mode
- Infrared sensors
- Types of Floors: Carpet, Hardfloor
- 4-stage cleaning

Dimensions & weight
- Product weight: 2.8 kg
- Product height: 9 cm

Service
- 2-year guarantee
- 6 month guarantee battery

Issue date 2016-05-19

Version: 5.1.1
