Highlights

High PowerLED

The LED module of this lamp is a uniquely developed solution by Philips, combining 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

Tunable white

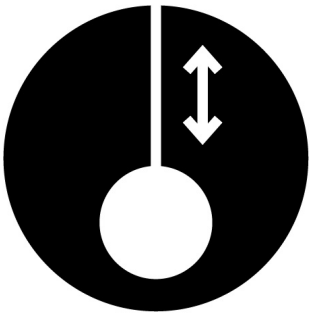

Who said that LED light can never have a warm light colour? Lirio by Philips introduces tunable white. You can choose your preferred light colour from 4 standard options, from warm white to cool white. Change by using a simple tool that is included with your light. Note: this feature is not a substitute for a dimmer.

Compatible with wall dimmer

This light is compatible with an installed wall dimmer (not included in the box).

Adjustable height

Choose the perfect height to match your needs.

Energy saving

This LIRIO by Philips light conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.
