

Philips ProResults
Standard sonic toothbrush heads

• 6-pack

HX6016/26

All-around Clean

Sonicare electric toothbrush head

Replacement brush head for Sonicare electric toothbrush, with larger surface area and contoured bristles that thoroughly cleans and massages teeth and gums.

Benefits

Designed to optimise performance
• Reminder bristles ensure you are getting an effective clean

Thorough clean feeling in your mouth
• Brush head design maximises sonic motion
• Contoured bristles fit the natural shape of your teeth
• Angled, radial-trimmed bristles expand the area covered

A brush head that fits multiple handles
• Snap-on brush head

Philips Sonicare's best plaque removal
• Removes up to 100% more plaque than a manual toothbrush*

Features

Snap-on brush head
Easy brush head placement and handle cleaning

Reminder bristles
Reminder bristles let you know when to replace the brush head. After three months of normal use bristles exhibit fatigue, and brush heads are less effective. Replace your brush head every 3 months.

PHILIPS

ProResults

Maximise cleaning performance

Thoughtful design and precision engineering ensure that when these Philips Sonicare replacement brushes are combined with the sonic motion and flexible brushing modes, you get a thorough clean.

Contoured bristles

These Philips Sonicare electric toothbrush bristles are trimmed in a contoured pattern to fit the natural shape of teeth. The peaks and valleys along the length of the brush head are ergonomically designed to follow teeth topography and fit between teeth so you're less likely to miss places when you brush.

Angled radial-trimmed bristles

The curved surface area created by angled, radial-trimmed bristles helps maintain contact with the surfaces of the teeth and gums as the brush head pivots, covering a larger surface area without increasing the size of the brush head.

Removes up to 100% more plaque

*Removes up to 100% more plaque from hard-to-reach places than a manual toothbrush
