SHB8000BK

Wireless high-precision sound

Excellent isolation and foldable design

The biker-inspired CitiScape Foldie delivers clear, precise sound and excellent noise isolation via a closed acoustic system and premium drivers. With Bluetooth, enjoy music wirelessly and switch between music and calls with ease and style.

Total sound immersion on the move

- 40-mm premium neodymium drivers for uncompromised clarity
- Bluetooth 3.0 for unwired music enjoyment and call switching
- Closed acoustic design for greater bass and noise isolation
- Pre-tilted ear shells fit any ear for excellent sound sealing

Supreme comfort

- Flexible metal arm designed for long listening comfort
- On-ear soft cushions for added comfort

Designed to stun

- Handcrafted headband inspired by urban bike handlebars
- Compact foldable design for easy portability and storage

Design for convenience

- Bluetooth or corded – enjoy music any way you like!
- Digital noise reduction for clear phone calls

Foldie On-ear, Black

SHB8000BK/00

Highlights

40-mm premium neodymium drivers

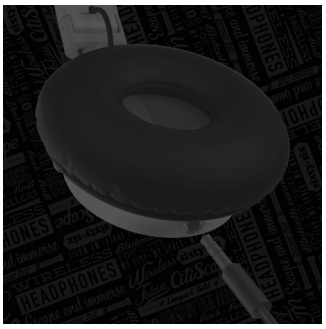

High-performance 40-mm neodymium drivers reproduce a wide frequency range accentuated with excellent sound details. Enjoy every nuance in your favourite music – from extended bass notes and warm mid-tones to crystal clear highs.

Bluetooth 3.0 connection

The CitiScape Foldie features Bluetooth 3.0, which allows you to enjoy your music wirelessly and effortlessly. Its smart controls on the headset are designed to let you switch between your music and calls with ease.

Choice of Bluetooth or corded

Letting you take your pick from not only Bluetooth wireless but also 3.5-mm plug-in musical playback, our new Bluetooth headset really does offer you the best of both worlds! Simply pair up your headset with any Bluetooth-enabled device to enjoy wireless listening pleasure at its crystal-clear best. Alternatively, just plug in the cable to the 3.5-mm jack to enjoy the same deeply enriching immersive listening experience. The choice is yours!

Compact foldable design

Your headphones can be compactly folded for easy storage and portability.

Digital noise reduction

This noise-reduction technology improves speech intelligibility with ambient noise during voice calls. It will suppress background noise and echo so that you can enjoy phone calls with improved audio quality in the presence of road noise, babble, wind noise etc. The technology estimates and creates an equal but opposite waveform to the noise, which reduces the unwanted noise by the process of subtraction.

Excellent noise isolation

Be part of the city's buzz but not its noise. With the closed acoustic on-ear design, every sound detail is isolated, allowing you to enjoy greater music detail as well as extended and dynamic bass.

Flexible metal arm design

Inspired by bike wiring, the ear shells and headband are connected by lightweight but durable metal wiring, ensuring secure, long-wearing comfort.

Handcrafted headband

Inspired by the woven wrapping around bike handlebars, the headband is handcrafted using leatherette for an edgy style statement.

Precisely tilted ear shells

Pre-tilted ear shells perfectly fit your ear's natural angle, providing an excellent sound seal so you can truly immerse yourself in your music.
