Eron makes heads spin

With the Eron table lamp all details have been reduced to keep only the essential, bringing light very discreetly into your home interior. The anti-glare LED disc can be turned in any direction to direct light into the darkest corners.

Benefits

Innovative lighting

- Anti-glare LED disc
- Energy saving
- Warm white light effect

Special characteristics

- On/off switch on article
- Rotates freely in any direction

product design award 2013

PHILIPS

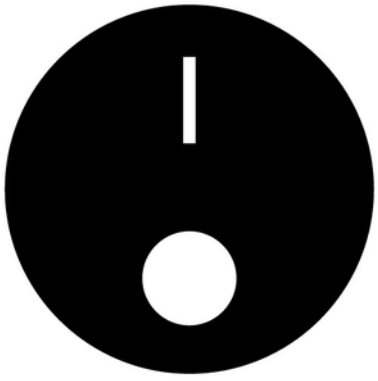

Features

Anti-glare LED disc

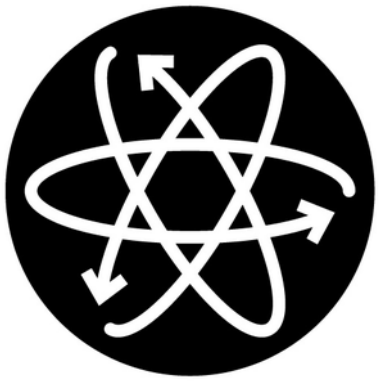

This light features the latest innovation in LED lighting: a flat anti-glare LED disc. This is a stunning array of six high-output LEDs mounted on a gorgeous ultra-thin disc. It directs stray light away from eyes and onto work surfaces without decreasing the brightness level.

On/off switch on article

With the button discreetly integrated in the article, you can easily switch the light on and off.

Rotates freely

You can rotate the lamp head of the lighting fixture in the desired direction and direct light where needed.

Energy saving

This LIRIO by Philips light conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Warm white light effect

Light up your home with warm white light. Lirio by Philips introduces a generation of warm white high-power LEDs. This innovation brings our lamps to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.
