

USB Type C to DisplayPort Converter

No.: 43286

Connect a DisplayPort monitor to your computer´s USB Type C port

Description

- Connects a DP display to a computer's USB Type C port
- Supports DP resolutions up to 4K 3840x2160@60Hz
- Requires DisplayPort Alternate Mode support by the USB Port/Bus
- Plug & Play, no drivers required
- 2 year warranty

The Lindy USB Type C to DisplayPort Converter allows users to easily add external video capabilities to a PC featuring the USB Type C port with support for DisplayPort Alternate Mode. The converter is powered by the USB Bus, therefore no external power supply is needed, saving space and time when connecting.

With support for 4K UHD resolutions, content can be viewed with superior clarity and stunning accuracy, while the Type C connectors reversible design means a connection can be found regardless of which way the cable is inserted into the port of a laptop, ultrabook or Macbook.

With Plug and Play installation, this converter can be installed with minimum fuss, perfect for both professional and first time users.
