Can light be architectural?

Imagine a disc of light that's so wafer thin it's almost as if the light comes out of thin air. That's the effect of the new ultra-flat anti-glare LED disc in this Circulis spot light. Its extremely thin lines make it a compact fixture too.

Highlights

Anti-glare LED disc

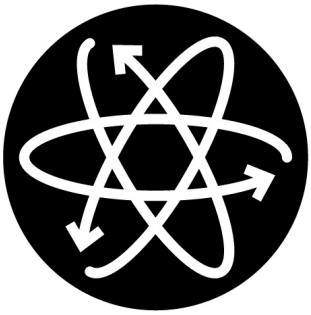

This light features the latest innovation in LED lighting: a flat anti-glare LED disc. This is a stunning array of six high-output LEDs mounted on a gorgeous ultra-thin disc. It directs stray light away from eyes and onto work surfaces without decreasing the brightness level.

Compatible with wall dimmer

This light is compatible with an installed wall dimmer (not included in the box).

Rotates freely

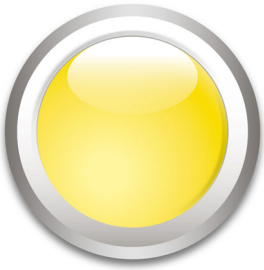

You can rotate the lamp head of the lighting fixture in the desired direction and direct light where needed.

Energy saving

This LIRIO by Philips light conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Warm white light effect

Light up your home with warm white light. Lirio by Philips introduces a generation of warm white high-power LEDs. This innovation brings our lamps to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.
