8000 Series Integrated Washing Machine 8 kg 1400 rpm

L8FC8432BI

Introducing the delicate shirt defender
AEG's built-in 8000 washing machine fits seamlessly with other appliances, makes less noise and provides unrivalled care for clothing. ÖKOMix blends detergents and softener with water before they enter the drum. Guaranteeing that delicate fabrics are cared for and cleaned, even in shorter cycles.

AEG's built-in 8000 washing machine fits seamlessly with other appliances, makes less noise and provides unrivalled care for clothing. ÖKOMix blends detergents and softener with water before they enter the drum. Guaranteeing that delicate fabrics are cared for and cleaned, even in shorter cycles.

Product Benefits & Features

Fibre protection with ÖKOMix Technology
With ÖKOMix, every trace of detergent and softener is mixed with water, dissolving and activating completely before it even enters the drum. It's the first washing machine technology to distribute detergents and softeners completely evenly – making sure they reach, clean and care for every fibre.

59-minute clean with ÖKOPower Programme
ÖKOPower is the daily washing programme that gives you everything you need. Wash clothes in only 59min with great results and less energy consumption. It's the ideal programme for daily use with no compromise on performance or sustainability.

ProSteam uses steam as a quick and easy way to refresh creased clothes so they're ready to wear. The short, gentle programme safely removes odours and reduces creases in dry fabrics. Or you can finish your wash cycle with a gentle steam so clothes need little to no ironing.

Customised cycles with ProSense Technology®
ProSense Technology® automatically weighs each load to provide a tailored cycle. Sensors then adjust washing times precisely, ensuring optimum treatment for every garment. Your laundry comes out with that fresh, new feeling every time, plus you save water and energy.

A quiet machine
for a comfortable home
The quiet washing machine ensures low noise levels when running a cycle. Minimising disruptions and maintaining a comfortable home.

- LogiControl™ touch display
- LED display
- 8 kg wash capacity
- 1400 spin speed RPM
- Programmes include:
- Anti-allergy programme
- Wool plus programme
- Delicate programme
- Cottons programmes
