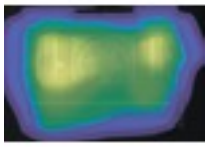
Product Benefits & Features

Make cleaning effortless
With one touch of the Pyrolytic cleaning function, dirt, grease and food residue in the oven is converted into ash that you can easily wipe off with a damp cloth.

Cooked evenly everywhere
With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called Hot Air, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be reduced by up to 20%, saving you



The oven that stays cool to the touch
Thanks to its Safe to the touch Top door, the outside of this oven door stays relatively cool to the touch, for a safe interaction under all circumstances.

Absolute accuracy, every time
The advanced Hexagon timer display gives you even more control over your cooking. By entering start/stop times into the clear LCD screen, the oven will automatically begin and end as instructed. Meaning you can expect absolute accuracy - even if you momentarily step away from your Oven.

Cook more at the same time and still get a perfect result
The additional heating ring in our oven ensures your dishes are evenly cooked – even when loaded with up to three trays – for corner to corner deliciousness. Sure to make each portion as perfect as the last.
