This compact convertible is agile, rugged, reliable and now 10% thinner than the previous generation. The 360° hinge allows for use across four modes – laptop, tablet, tent, and stand – enabling better task compatibility and efficiency. The optional world-facing 5MP camera makes it easy to capture photos and insert into projects and presentations - all on one device.

REASONS TO BUY

Take notes, annotate documents and sketch ideas with the optional digital pen which automatically recharges when docked inside the laptop. The touchscreen also supports use of a regular pencil for basic drawing and note taking.

Collaboration is a breeze with multiple ports including USB-C, USB 3.0, Blueooth® and optional HDMI, that facilitate fast data transfers, convenient connections to external monitors, and charging of portable devices.
