Designed for your kitchen

- Part of a modular system
- Accurate colors with high quality light

Sustainable light solutions

- Warm white light
- Always a Philips bulb included
- Adjustable light intensity with dimmer switch
- Energy saving

PHILIPS

Features

Part of a modular system

This product is part of a modular system. This means it can be connected with other products from this system in any combination. The other products of the system can be recognised by the red jigsaw puzzle piece.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Accurate colors

This Philips kitchen light makes colors reflect in a natural and accurate way. Just the way the sun would do.

Always a Philips bulb included

High quality Philips light bulbs are included in the box to achieve the best light effect.

Dimmable

Adjust the light intensity of this Philips light with a dimmer switch (not included).This makes this light ideal for highlighting a feature or creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Specifications
