Highlights

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Adjustable height

This Philips pendant light is delivered with long cables to offer you a maximum flexibility during installation. Choose the perfect height matching your needs.

Dimmable

Adjust the light intensity of this Philips light with a dimmer switch (not included).This makes this light ideal for highlighting a feature or creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Long operating life

A light source you can trust. The integrated LEDs, used in this Philips LED lamp, will last up to 20.000 hours (which equals 20 years on basis of an average use of 3 hours / day with an amount of at least of 13.000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or light bulb replacement while having the perfect light ambiance in your home.
