Highlights

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Adjustable height
This Philips pendant light is delivered with long cables to offer you a maximum flexibility during and after installation. Choose the perfect height matching your needs.

Always a Philips bulb included

High quality Philips EcoLamp energy efficient light bulbs are included in the box to achieve the best light effect.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.
