- Accurate colors with high quality light
- Can be connected to products from the same family

Sustainable light solutions

- High quality LED light
- Warm white light
- Energy saving

Special characteristics

- On/off switch on article

PHILIPS

Features

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Accurate colors

This Philips kitchen light makes colors reflect in a natural and accurate way. Just the way the sun would do.

Connectable product

This product is connectable with a similar product or with any other product from the same family.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

Specifications

[field not found 'disclaimer_text']

Design and finishing

Material	synthetics
Color	white

Extra feature/accessory incl.

On/off switch on article	YES
LED integrated	YES
