Highlights

Choice of 3 pairs of ear caps

Your CitiScape in-ear headphones come with 3 pairs of ear caps so you can treat your ears to a perfect fit. The ear caps come in 3 sizes, from small to large, and they're all stylish yet superbly comfortable.

Efficient acoustic chamber

The efficient acoustic chamber system is structured specifically as a maximised space for sound waves to move about freely. As a result, you get to enjoy a much more dynamic sound performance.

Ergonomic oval sound tubes

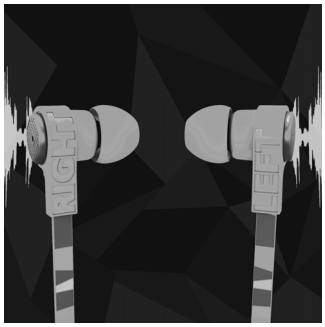

Based on extensive research and designed to fit any ear, the ergonomic oval shape of the sound tube ensures an optimum and comfortable fit.

Fine-tuned 9 mm premium drivers

Plug into a world of crystal clear and natural sound with precisely tuned 9 mm premium drivers. Your CitiScape in-ear headphones are carefully engineered to deliver high precision sound, whatever music you're listening to.

Noise-isolating ear caps

Noise isolating ear caps block out environmental noise, allowing you to immerse in pure music enjoyment.

Reinforced cable relief

To help extend the life of your headphones, a soft protective rubber protects the connection where the cable meets ear shell casing. This prevents damage through repeated bending.

Tangle-free flat cable

Urban-chic graphic prints on a smart flat cable keeps you on-trend and tangle-free.
