- A drip stop to pour a cup of coffee whenever you like
- Swing filter holder for easy filling of coffee
- Cable storage compartment for easy placement in your kitchen
- Dishwasher-proof parts for easy cleaning
- A timer to wake up with the smell of fresh coffee
- A water level indication for easy filling

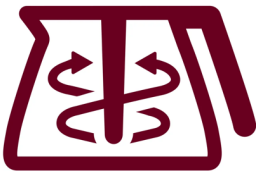

Highlights

Automatic shut-off (30 min.)

30 minutes after brewing your coffee, the coffee maker switches off automatically for energy saving and safety. This is according to EU regulation, which is applicable for all coffee makers in the EU.

Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

Rich coffee flavour

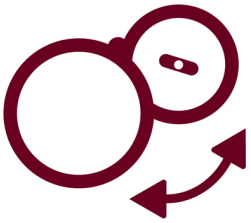

Thanks to the concentrated water flow that is poured onto the coffee bed, optimal flavours are extracted from the coffee grounds.

Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Swing filter holder

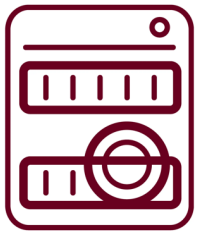

The filter holder is opened by swinging it to the side, which makes it easy to fill up with coffee. The filter holder is also detachable for easy cleaning.

Cable storage compartment

Spare cable can be stored very easily in the cable compartment at the back of the coffee maker. This means that the coffee maker can be positioned nicely in your kitchen.

Dishwasher-safe parts

The jug and filter holder can be easily cleaned in the dishwasher.

Timer

Wake up to the smell of fresh coffee thanks to the timer. Prepare your coffee maker, set the time and a fresh jug of coffee is brewed at the time you choose.

Water level indication

Fill the water tank easily and precisely with the water level indication.

Specifications

Service

2 year guarantee: Yes

General specifications

Type of display: LCD
Ease of cleaning and maintenance: Dishwasher-safe parts, Removable filter holder
Ease of use and comfort: Automatic shut-off, Display, Water level indication, Drip stop
Special functions: Aroma twister
Suitable for: Ground coffee powder
Coffee drinks: Drip filter coffee

Technical Specifications

Capacity water tank: Up to 15 cups, 1.2 l
Water boilers: 0
Brewing time for a jug: 10 minute(s)
Frequency: 50–60 Hz
Cord length: 0.85 m
Voltage: 220–240 V

Accessories

Included: Glass jug

Design

Colour: Black, Black and Metal

Finishing

Material of main body: Plastic
Material water tank: Plastic

Weight and Dimensions

Weight of product: 1.6 kg
Weight incl. packaging: 3.7 kg
Dimensions of product (W x D x H): 230 x 215 x 335 mm

Sustainability

Power consumption brewing: 1000 W

Country of Origin

Made in: Poland
