Easy on your eyes

Helps you stay focused

Adjust the light to where you need it most with the Philips EyeCare Pivot desk lamp. This instant-on LED lamp gives plenty of light to help you stay focused, while a built-in USB charger and gradual-touch dimmer enhance your productivity.

Benefits

Optimal eye comfort

- Customised optics for even light distribution
- Designed to reduce glare and eye strain

Helps you stay focused

- Cool daylight ideal for focus and concentration

Create ideal light setting

- Ultimate adjustment with gradual touch dimming

Ergonomic design

- Built-in USB port
- Extended reach for maximum reading comfort

PHILIPS

Features

Even light distribution

With the customised optics in Philips EyeCare desk lamps, you get light that is diffused and evenly distributed across your workspace. This reduces uneven lighting and dazzle, which normally leads to tired eyes and general eye fatigue.

Reduces glare and eye strain

The combination of customised optics and high-quality cool white LED light in this Philips EyeCare desk lamp helps to reduce glare and eye strain. Comfortable and with no visible flickering, it helps to support optimal eye comfort.

Cool daylight

Various findings have pointed out that a cool daylight colour temperature of 5500K and up to 1000 lux promotes concentration by maintaining energy levels and alertness with natural light levels.

Gradual touch dimming

Fully adjustable light levels with gradual touch dimming ensure you'll always be able to set a light level that is kind to your eyes and perfect for the task at hand. Gradual dimming also ensures a smooth transition between different light levels, allowing your eyes to adjust more naturally.

Built-in USB port

For added convenience, this Philips EyeCare desk lamp comes with a built-in USB port, enabling you to charge your smartphones or other devices while you work.

Extended reach

The ergonomic and flexible arm of this Philips EyeCare desk lamp is designed to offer extended reach for maximum reading comfort. Positioning is effortless, so you won't have to bend or move awkwardly around your desk to get your lighting focused correctly on your workspace.
