- Optical/coaxial in for connecting your TV, PC or game console

Designed to enhance your living space

- Minimalistic chic design to suit a modern decor
- Luxurious cloth perfectly defined for best sound performance
- Real wood finish for modern home décor

PHILIPS

Features

Silk dome tweeter

A silk dome tweeter holds a diaphragm made with silk—a superior material to that used in ordinary tweeters. The silk material used in the diaphragm has superior sound damping characteristics and its soft texture ensures minimal acoustic breakup. As a result, the sound produced by a silk dome tweeter is smooth, warm and has a wide range.

Bluetooth® (aptX® and AAC)

Bluetooth® (aptX® and AAC) for wireless music steaming

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

HDMI ARC

Dolby Digital

Because Dolby Digital standards, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.
