Highlights

2.4" Touch screen
The easy-to-use touch screen gives you a simple and unique way to use your mobile phone and its stylus to quickly navigate menus, write SMS, personalize and give emotion to your pictures, play games, and access other applications

Handwriting recognition
The intuitive and fast way to write text messages. Simply write on the touch screen as you would write on a piece of paper to have the phone convert your handwriting into an SMS (Short Message Service) text message. The feature has built-in handwriting recognition capability in both Chinese (traditional and simplified) and English (Roman alphabet).

Large 262K color TFT display
Put the fun and excitement of the most vivid and colorful graphics and photos right at your fingertips with the large 262K color display that features excellent image quality and response time.

Bluetooth stereo music
Your Philips mobile phone supports A2DP Bluetooth Profile. It lets you enjoy your favorite tunes wirelessly and in high quality stereo music from your Bluetooth headphones.

Video capture and playback
The video capture function lets you record precious moments in MPEG4 or H263 format. Play it back on your phone or PC.

Megapixel digital camera
The integrated digital camera with 1.3 megapixel resolution (1024x1280 pixels) allows you to capture precious moments of your life anytime, anywhere with your phone. Press camera key to take vibrant pictures and use as wallpaper and fotocall, or to send later via MMS.

MicroSD memory card slot
You can now enjoy extra capacity and storage of multimedia files by inserting a MicroSD memory card into the built-in memory card slot of your phone.
