AJ3200/12

Wake up to FM radio and a smartphone fully charged

Philips AJ3200 clock radio charges any smartphone, iPhone or Android, while you sleep. Flexi-cradle fits the socket position on any phone perfectly. Wake up to your favorite FM radio and start your day fully charged.

Benefits

Convenient bedside battery charger

- Universal charging cradles and clutter-free cable management

Start the day your way

- Wake up to your favourite radio tune or a buzzer
- Repeat alarm for additional snooze
- Dual alarm to wake you and your partner at different times
- Gentle wake for a pleasant waking experience
- FM digital tuning with presets

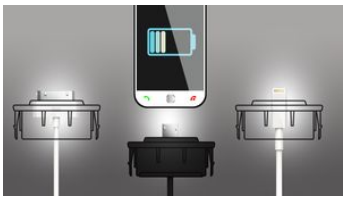

Easy to use

- Battery back-up ensures memory of time during power failure
- Sleep timer helps you to drop off to your favourite music

PHILIPS

Features

Universal charging

No more cable chaos on your nightstand. This clock radio comes with three interchangeable cradles and for charging your iPhone, Android or other smartphones. Use Apple Lightning or 30-pin charging cable with the right cradle for your iPhone and/or the by-packed micro USB cradle for Android and others. Once the cable and cradle are hooked up, dock your smartphone and start charging right away. Even the wires are tucked away neatly out of sight.

Wake up to the radio or a buzzer

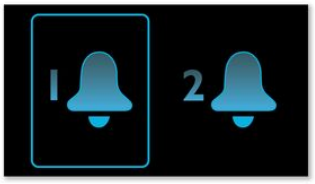

Wake up to sounds from your favourite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

FM digital tuning with presets

Digital FM radio offers you additional music options to your music collection on your Philips audio system. Simply tune into the station that you want to preset, press and hold the preset button to memorise the frequency. With preset radio stations that can be stored, you can quickly access your favourite radio station without having to manually tune the frequencies each time.

Battery back-up

Sleep Timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch to a power-efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.
