P9BLK/37

High fidelity sound made portable

Obsessed with sound

The Philips Fidelio wireless speaker is high performance and portable. It gives great, clear, dynamic sound and is perfect to use at home or on the go. With wireless music streaming via Bluetooth, it gives you fuss-free musical enjoyment.

Benefits

Peerless sound quality
• Soft dome tweeters for wide and natural sound
• Woofers and wOOx technology for solid, amazingly deep bass
• Optimized crossover filter for a very natural tonal balance
• High performance amplifier for great loudness and dynamics

Designed to go places
• Built-in rechargeable Li-ion battery for playback anywhere
• Premium design in natural wood and aluminum

Advanced versatility
• Wireless music streaming via Bluetooth
• USB port to charge any mobile device
• Battery level shows automatically when speaker is touched
• Audio-in for easy connection to almost any electronic device

PHILIPS

Features

Soft dome tweeters

Thanks to the use of soft dome tweeters, high frequencies are very detailed and precise. This is a technology pioneered by Philips in the 1960's and that since then is used on the vast majority of high-end loudspeaker boxes. The very open spatial presentation also greatly owes to these tweeters characterized by a very low directivity and distortion; compared to systems using only full-range drivers, the sound is wide and natural, from any position in the listening area.

Woofers and wOOx technology

Despite a very compact acoustic volume, the bass is solid and surprisingly deep, making it possible to enjoy all types of music. This is achieved by using a combination of two high-power woofers and one large area passive radiator per channel, all within a very stiff enclosure that does not lose any bass energy. The large moving mass of the passive radiator makes it possible to tune the system to a very low frequency of 80Hz, while preventing air turbulence that would otherwise appear with a ported design. Feel the rhythm of the music, don't miss a beat.

Optimized crossover filter

Our acoustics engineers spent days and nights optimizing the crossover filter to make sure that the sound remains as natural as possible, in very different acoustic environments. From small rooms to open space, from soft listening levels to maximum volume, voices are clear and natural, and the sound is neither aggressive nor tiring, even at loud listening levels. So you can listen for hours and keep on wanting to listen to more of your favorite music.

High performance amplifier

Loudness and dynamics are great, thanks to a high performance amplifier coupled with 8 high-efficiency transducers. The tweeters and woofers have both been tailored to this unique product and have a high force factor, resulting in sound that is dynamic and impressive at all listening levels. Music is lively, dynamic and simply enjoyable in any circumstance.

Wireless music streaming

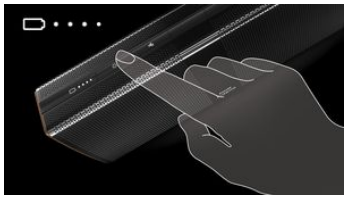

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

USB port

This speaker features a USB port, if your smartphone is running out of battery either at home or on the go, this portable speaker allows you to transfer the battery stored in the speaker to your mobile device.

Battery level

Just touch the speaker lightly and it will display the battery level.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Compatibility

iPad	iPad 1 iPad 2 new iPad
iPhone	iPhone 3 iPhone 3GS iPhone 4 iPhone 4S
iPod touch	3rd generation or later
Android tablets & smartphones	Yes
other Bluetooth-enabled device	Yes

Loudspeakers

Loudspeaker enhancement	wOOx Bass Radiator
Speaker drivers	2 x 3/4" soft dome tweeter 4 x 2" full-range woofer
Output power (RMS)	20W

Accessories

Included accessories	AC-DC Adapter Quick install guide Warranty certificate World Wide Warranty leaflet

Connectivity

Bluetooth profiles	A2DP
Bluetooth range	Line of sight, 10M or 30FT
Audio in (3.5mm)	Yes
USB charging	Yes

Dimensions

Product dimensions (WxDxH)	287 x 63 x 127 mm
Packaging dimensions (WxDxH)	326 x 101 x 224 mm

Power

Power supply	100-240VAC, 50/60Hz
Battery type	Li-ion (built-in)
Operating time on battery	8 hr
