Highlights

High quality LED light

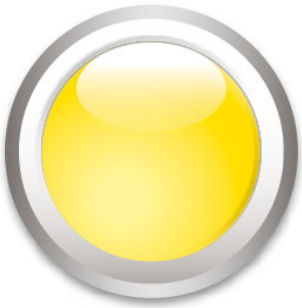

The LED technology integrated into this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

5-year warranty on LED system

On top of the standard 2-year warranty for this lamp, Philips offers a 5-year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

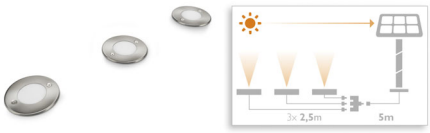

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

No power cables required

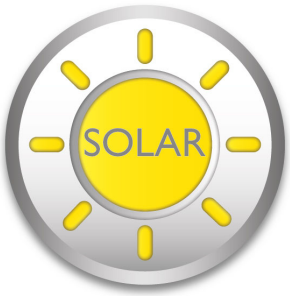

Philips myGarden Solar takes the hard work and hassle out of outdoor installation, requiring just a few simple minutes to place in your garden – even if you've never installed outdoor lighting before. With no mains power cables to worry about, there is lots of flexibility for placement, since you don't need to be close to a power socket.

Separate solar panel

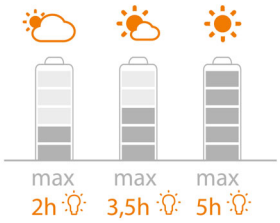

This Philips myGarden Solar light has a separate solar panel connected to the light by an included cable.

Solar energy

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. With no electricity consumption at all, they help you save money on your electricity bills and do your bit for the environment.

Maximum light duration: 5 hrs

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. Both the solar panel and LED light are of the highest quality to maximise sunlight collection. The length of lighting time depends on the amount of sunlight the solar panel receives. In good weather conditions, this light has a maximum light duration of 5 hours. Furthermore, energy-saving features such as an on/off switch or a motion sensor help to ensure that whatever the weather or time of year, you'll always be able to have bright lights in your outdoor areas.

IP67 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP67: it is protected against temporary immersion and ideal for lighting paths or driveways. You can even drive over it.

Specifications

Design and finishing
- Material: stainless steel, synthetics
- Colour: inox

Extra feature/accessory incl.
- Day-and-night sensor
- Waterproof
- Solar Energy
- 5 year warranty on the LED module

Product dimensions and weight
- Length: 7.2 cm
- Width: 7.2 cm
- Net weight: 1.824 kg
- Recessed distance: 4.6 cm
- Cut out length: 6.4 cm
- Cut out width: 6.4 cm

Technical specifications
- Mains power: 7.4 V
- Bulb technology: LED, Safety Extra Low Voltage
- Number of bulbs: 3
- Wattage bulb included: 1 W
- Light colour: warm white
- Total lumen output fixture: 100 lm
- LED
- Lifetime up to: 15,000 hrs
- IP code: IP67, dust tight, protection against temporary immersion
- Class of protection: III — safe extra low voltage
- Light source equivalent to traditional bulb of: 11 W

Service
- Warranty: 5 year(s)

Packaging dimensions and weight
- Height: 33.8 cm
- Length: 26.3 cm
- Width: 10.3 cm
- Weight: 2.113 kg

Miscellaneous
- Especially designed for: Garden and Patio
- Style: Contemporary
- Type: Recessed spot light
