Highlights

10x better cleansing

Philips PureRadiance Essential brings a new technology that will take your daily cleansing routine to the next level without extra effort. A gentle way of leaving your skin clean, softand radiant.

DualMotion Technology

The brush rotates and vibrates. The vertical pulsating movement gently breaks up surface impurities including dirt, dead skin cells and make-up residues. The rotating movement sweeps the impurities away, leaving the skin more deeply cleansed. The coordinated movements of the bristles give you a thorough and comfortable cleansing experience.

Intelligent skin zone timer

The face can be divided in different zones. The intelligent skinzone timer lets you know through a short pause when it's time to move to the next skin zone. The device automatically stops after a full face program. The Cleansing program lasts 1 minute.

2 intensity settings

With each brush head you use, you can choose two intensitiy settings, based on your personal preference. Select Setting 1 if you would like a mild and soft treatment, and Setting 2 if you prefer a more intense treatment.

Waterproof

Philips PureRadiance Essential is waterproof and can be easily used in the shower.

Charging Stand 30 mins usage

The stand elegantly complements the iconic design of Philips PureRadiance Essential. It holds the brush, taking less space and letting air naturally dry the used brush. When connected it fully charges the device in 6 hours.

Increases absorption of creams

Cleansing with PureRadiance Essential means that you remove more make up residue , dead skin cells and dullness. Thanks to the deep cleansing effect, your favorite skincare products like creams, serums and essences are better absorbed by the skin.

Easy to clean heads

The heads are easy to clean. Simply clean them in the sink with warm water and soap.
