- Technology: Halogen
- Type: H7
- Range: WhiteVision
- Application: High beam, Low beam, Additional high beam
- Designation: H7 WhiteVision
- Homologation ECE
- Marking ECE: E1 22Z
- Base: PX26d

Electrical characteristics
- Voltage: 12 V
- Wattage: 55 W

Light characteristics
- Lumens: 1500 ±10% lm
- Color temperature: up to 4300K

Lifetime
- Life time: B3/Tc=200/450

Ordering information
- Order entry: 12972WHVS2
- Ordering code: 37402530

Packaging Data
- Packaging type: S2A
- EAN1: 8727900374025
- EAN3: 8727900374032

Packed product information
- Gross weight per piece: 78 g
- Height: 10.9 cm
- Length: 10.9 cm
- Net weight per piece: 10.7 g
- Pack Quantity / MOQ: 20
- Width: 5.9 cm

Outerpack information
- Gross weight per piece: 1560 g
- Net weight per piece: 214 g
- Height: 13.6 cm
- Length: 34.7 cm
- Width: 26.8 cm

Marketing specifications
- Expected benefits: Whiter light
- Product highlight: 4300K

Highlights

A 4300K driving experience

Philips WhiteVision headlights are the right choice for drivers who want to drive with style without compromising on safety. With a color temperature of close to Xenon headlamps, a stylish white cap and brighter light on the road, WhiteVision is the ultimate upgrade for your headlamps. The Philips patented 3rd generation coating technology is an evolutionary masterpiece making WhiteVision the first headlamp with a truly white light.

Crisp white beam
With 4,300K* white light (i.e. 40% whiter light than standard lamp), Philips WhiteVision headlights illuminate the road ahead with a crisp white beam that eliminates darkness instantly. The premium beam for a premium driving experience.

60% more light on the road
A longer beam pattern with 60%* more light enables you to see other road users more clearly. It improves safety, giving you more time to react to potential hazards on the road ahead.

100% road legal

WhiteVision is ECE certified and the first road-legal intense white light. It gives you the ultimate in high visibility without compromising safety by dazzling the car in front.

High quality, high resistance
UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of early failure. Philips UV-Quartz glass car lamps allow more pressure inside the lamp to produce a more powerful light and extended lifetime.

The car manufacturers' choice
For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.
