

Philips Genuine replacement filter Humidification wick

HU4136/10

- NanoCloud Technology
- Up to 99% less bacteria

Healthy air, always

NanoCloud Technology with hygienic humidification

- Perfect fit for consistently high performance
- Up to 99% less bacteria with NanoCloud technology(1)
- Philips filters ensure that your device works effectively

*(1) Compared to standard ultrasonic humidifier modules that do not contain additional technology to reduce the spread of bacteria, as tested by an independent lab

Highlights

The original Philips filter

Replacing the filter with the original Philips humidification wick ensures a consistently high and efficient performance of your air humidifier. It is designed specifically for the indicated device to make sure that it perfectly fits and allows the appliance to operate smoothly.

NanoCloud Technology

Unique NanoCloud Technology uses natural evaporation to emit pure water vapour. Due to its fine size, it is extremely difficult for bacteria or residue to attach to, humidifying the air with up to 99% less bacteria released than standard ultrasonic humidifiers(1).

Quality you can trust

Our filters go through a set of mandatory and strict inspection tests before releasing from the factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7, to provide the best performance of your Philips humidifier until the last day of the filter's lifespan.

Specifications

Weight and dimensions

F-box weight (incl. product): 0.098 kg
Weight of product: 0.043 kg
F-box dimensions (W x D x H): 140 x 190 x 60 mm
Dimension of packaging (L x W x H): 60*195*14 mm
Dimension of product (L x W x H): 128*168*40 mm
Weight incl. packaging: 0.105 kg
Colour(s): White

Logistic data
