Feel safe, drive safe

100% more light : boost your vision on the road

Philips X-tremeVision headlight bulbs offers up to 100% more light with a light beam up to 35 meters longer than a standard lamp. X-tremeVision is engineered with state-of-the-art technology for ultimate bright light.

Benefits

Twice as much light for maximum visibility
- X-tremeVision projects 35 m light extra than a standard bulb
- Change both your headlamps at once for more safety
- Wide range of 12V lamps to meet all functions
- Greater driving comfort and safety

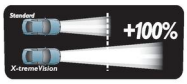

Original Equipment manufacturer
- Philips is the choice of all major car manufacturers
- Respecting high quality standards of the ECE homlogation
- Award winning car lamp manufacturer

Very high quality and ultra resistant car lamp
- Philips car lamps are made of high-quality quartz glass
- Philips car lamps are highly resistant against humidity

PHILIPS

Features

100% more light on the road

Based on a unique filament design and optimized geometry, X-tremeVision is engineered with state-of-the-art technology for ultimate performance and bright, white light where it matters the most.

Car manufactuer choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting

Change by pairs

Highly recommended to change them by pairs for symetric light performance

Designed for multiple usage

Which 12V lamp for which function ? Philips Automotive offering includes all car specific functions : high beam, Low beal, front fog , front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights.

ECE homlogation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximize the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

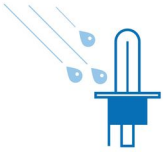

X-tremeVision

Rewarded Car lamps

Our lamps are often rewarded by automotive experts

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

High quality and visibility

X-treme Vision provides you with a better reactivity thanks to an earlier recognition of obstacles and traffic signs. Light is a fundamental part of the driving experience and light is the first and only part of the safety circle that actually helps prevent accidents. Philips promotes active safety protection to prevent accidents by increasing overall visibility and road illumination.

Specifications

Packaging Data

Packaging type	S2/L
EAN1	8727900369069
EAN3	8727900369076

Electrical characteristics

Voltage	12 V
Wattage	55 W

Lifetime

Life time	B3/Tc = 200/350

Light characteristics

Color temperature	3350 K
Lumens	1550 ±15% lm

Outerpack information

Gross weight per piece	0.586 kg
Height	12 cm
Length	28,6 cm
Width	14,1 cm
Net weight per piece	59.5 g

Product description

Type	H1
Application	High beam Low beam fog beam
Designation	H1-12258XV-CI
Homologation ECE	YES
Marking ECE	E1 21P
Range	X-TremeVision

X-tremeVision

Technology	Halogen
Base	P14,5s

Packed product information

Gross weight per piece	58.6 g
Height	13,3 cm
Length	5,3 cm
Net weight per piece	5.95 g
Pack Quantity / MOQ	2
Width	11,0 cm

Marketing specifications

Expected benefits	More light
Product highlight	Up to 100% more light
