

Philips LivingWhites
French Plug

69165/31/PF

Create the light for the moment

Bright white light for reading. A warmer tint for playing games with the kids. You don't have to change your luminaires to bring LivingAmbiance into your home. Simply add this plug, and they will work with other LivingAmbiance products.

Add your current luminaires to LivingAmbiance
- Connect any white light luminaire to a LivingAmbiance remote
- Dim your white light luminaire with the remote

Experiment with lights to create your ambiance
- Adjust each light individually, or in any combination
- Control this and other SmartLink lights with one remote

- Length: 16.2 cm
- Width: 11.2 cm
- Weight: 0.320 kg

Miscellaneous
- Especially designed for: Living- & Bedroom
- Style: Contemporary
- Type: Other

Highlights

Adjust one light or all

When connected to other Philips LivingAmbiance products, you can change color, dim or adjust intensity of colored light luminaires and dim white light luminaires.

Connect to LivingAmbiance

Plug the LivingWhites luminaire control plug between your luminaire and the wall socket, and the luminaire will work with other LivingAmbiance products. This allows you to control a luminaire you already have at home with a LivingAmbiance remote control, and to connect it to other LivingAmbiance products. You can now make your own luminaire part of the scene! Attention: the luminaire you connect to the LivingWhites plug should not have a touch dimmer.

One remote for all lights

All of the LivingAmbiance products work together via the same intuitive remote control, with which you can dim or change the colour of your lights – individually or together – in any combination you please. You can recognize which products work together by looking at the box or the product itself. If there is a SmartLink logo, it means the product will work with other SmartLink products.

Dim your luminaire

You can dim your luminaire with a LivingAmbiance remote control. Make sure that the light bulb in the luminaire is dimmable.
