PHILIPS

Features

For kids

This Philips and Disney light for your child's bedroom creates an environment which encourages children to indulge in what they enjoy most – fun and creativity! A place where your child can study, play and sleep accompanied by their favourite Disney character. This light is designed to be safe for your child.

Accompanies your child

This Philips and Disney portable light safely guides your child during nightly walks to the bathroom or the parent's bedroom. Designed for kids, this torch light fits perfectly into your child's hand and makes it easy to carry it around anywhere.

Creates a magical ambience

This Philips and Disney portable light for your child's bedroom combines a night light with a magical image projector. The night light makes your child feel safe at night, while the projector brings your child's favourite Disney characters to life on the wall or ceiling. This unique 2-in-1 light brings bedtime routines and story telling to a higher level. With the two-way switch integrated on the lamp, you can easily switch between the night light and the magical image projector.

High quality LED light

The LED technology, integrated into this light, is a uniquely developed solution by Philips. While instantly turned on, it enables optimal light output and brings out vivid colours in your kid's room.

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lights with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This light offers warm white light for a cosy atmosphere.

Battery operated - 3 x LR44

This light works on 3 LR44 1.5V batteries. All batteries of this size will work. Do not mix different types of batteries; always use the same type. The batteries are included in the box.

Extra image wheels included

This Philips and Disney light comes with 3 wheels, each consisting of 8 different images to stimulate your child's imagination.

On/off switch on article

With the button discreetly integrated on the fixture, you can easily switch the light on and off.
