# Highlights

## Cool to touch LED technology

Cool to touch LED technology, safe to handle

## Child-friendly

This lamp creates an environment which encourages children to indulge in what they enjoy most: fun and creativity! What's more, this lamp is also designed to be safe for your child: it is cool to touch, robust and users non-toxic paint.

## Soft glowing nursing light

The typical lighting in a room is often too bright for night nursing, and will jolt both you and baby wide awake. Birdie's soft glowing light is gentle on you and especially on your little one to go back (return) to sleep quicker after nursing.

## Comfortable night light

Birdie has a comfortable night light you can easily see in the dark.

## Easy switch

With just one tap, Birdie switches from a feeding light to a night light.

## Room temperature indicator

Your baby can be very sensitive to slight changes in temperature, so the right room temperature is very important for your baby's sleeping comfort. At a glance, Birdie can tell you the room temperature; it glows yellow when it is just right between 16 to 24 degree Celcius, orange when it is too hot, and green when it is too cold.
