NGS ERGONOMIC WIRELESS MOUSE EVO ERGO

NGS EVO ERGO ERGONOMIC WIRELESS MOUSE GLOSSY BLACK COLOR

NGS Evo Ergo is a wireless ergonomic mouse especially designed for laptop and desktop users who work long periods on the computer.

The cutting-edge design of the NGS Evo Ergo Mouse maximises wrist comfort while facilitating navigation.
Designed to encourage a more natural position of the hand, wrist and forearm, NGS Evo Ergo Mouse helps prevent pain from repetitive strain injuries (RSI syndrome).

It features 5 buttons to make everything you do on your laptop easier, from surfing the Web to navigating your Social Networks with precision clicking, pointing and dragging (Forward/Backward/DPIs) and a scroll wheel that gives you the precision you need when navigating lists, slides, and images.

This device incorporates a 2.4 GHz radio frequency wireless technology, so it can communicate with the computer from a distance of 10 meters.

Thanks to its optical sensor and built-in DPI switch button, you can switch DPI between 800/1200/1600/2400 and choose the mouse speed.

This vertical mouse comes with a nano receiver which can be placed under the mouse, or it can remain connected to the laptop without risk of fall or loss. "Plug and Play" installation, you just have to plug it in and start working.
