## *Tasteful design*

The TravelMate P257 sports a simple, clean-cut design, embellished with a unique finish. The sophisticated textile pattern on the top cover and underside helps and prevents scratches to improve durability while making the notebook more comfortable to hold. The undercut design on the front and rear edge improves usability as it is easy to open with just one hand.

## *First-rate productivity*

With the latest Intel® Core™ processors, advanced graphics solutions and up to 16GB of DDR3L memory, the TravelMate P257 runs common office tasks smoothly. Large hard disks keep users data always at hand. Multi-display support vastly improves multi-tasking and productivity. In addition, Acer ComfyView™ anti-glare display reduces reflection, offering comfortable views and crisper images even outdoors.

## *Effortless communications*

Connectivity options include Bluetooth 4.0, Gigabit Ethernet and wireless LAN technology with AC support for fast Internet speed, even where Wi-Fi connectivity is erratic. The webcam with HDR for sharp images in any light condition together with built-in digital microphone and stereo speakers ensures flawless web-conferencing.

## *Integrated security and manageability*

Security and manageability are essential to organizations. To meet users' needs the TravelMate P257 series comes with a set of useful tools: Acer Office Manager (AOM to deploy security policies, monitor IT assets and schedule maintenance tasks , and Acer ProShield, a portal that let users manage their credentials, as well as to efficiently protect or permanently delete files. Moreover, the optical drive is M-DISC™ ready. Compared to hard drive, DVD and flash drive, M-DISC ensures a much longer storage term, making it perfect to archive a company critical data.

## *Seamless usability*

Precision Touchpad provides a faster and smoother user experience as it accurately senses fingertips movements and can tell palms apart. Through Contact Pickup users can save their contact details on others' smartphones via QR code in a flash. For greater security user can count on Face Login to quickly and safely access OS and websites.
