MIG Induction Mix Hob 60 cm

HD634170NB

Gas and induction cooking options right at your fingertips
There’s no need to choose between gas and induction heating anymore! This hob gives you the benefits of both, with gas as well as induction cooking zones.

There’s no need to choose between gas and induction heating anymore! This hob gives you the benefits of both, with gas as well as induction cooking zones. Mixed hob, with 2 gas and 2 induction zones, for all your cooking needs.

Product Benefits & Features

Ignite each zone straight away with just one hand
For maximum control, you can activate and ignite each zone with just one hand. The single-action system on the hob also delivers optimum efficiency and security.

Maximum flexibility during the cooking process
The Stop+Go function reduces all zones to a 'keep warm' setting if cooking is interrupted. Return to cooking, Stop+Go remembers the previously selected setting.

Quicker heat for extra speed
This hob's power booster function is specially designed to provide you with a quick, intense heat up that gets you cooking fast.

Total control over cooking time
The adjustable timer (max. 99 minutes) will remind you of the cooking time. It can also be used as a minute minder when the zones are not in use.

Perfectly safe for your children
The child safety lock ensures that the hob settings cannot be accidentally changed, so you can use the hob safely when your children are around.

- Rotary front controls on glass panel
- Rotary controls
- Stop & Go with keep warm setting
- Residual heat indicators
- Powerful booster
- Cast iron pan supports
- Automatic integrated ignition
- 15 stage digital power level displays
