Bright LED lighting with excellent light quality

Create a cool, energizing ambiance

Bright LED lighting with excellent light quality

Benefits

Designed for perfect light quality
- Light all around

Create a warm atmosphere
- High color rendering (CRI > 80) for vivid colors

Instant brightness
- Instant light when switched on

Features

High color rendering (CRI>80)

The color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colors truly and naturally.
