Philips
Soundbar speaker

3.1 CH wired subwoofer

Bluetooth®
HDMI ARC
150 W

HTL2183B

Unmatched voice clarity from 3.1 Ch

with Bluetooth streaming

Upgrade your TV with enhanced voice clarity and virtual surround sound for a better cinematic experience, plus wireless music streaming over Bluetooth.

Connect and enjoy all your entertainment

- Wireless music streaming via Bluetooth
- EasyLink to control all HDMI CEC devices via a single remote
- Enjoy MP3 music directly from your portable USB devices
- Audio-in to enjoy music from iPod/iPhone/MP3 player
- Works with TVs, BD/DVD players, gaming consoles, MP3 players

Designed for simplicity

- Low-rise profile for the perfect fit in front of your TV
- Touch panel for intuitive playback and volume control

Richer sound for watching TV and movies

- Dedicated centre-channel speaker for superior voice clarity
- Dolby Digital and Pro Logic II surround sound
- Virtual Surround Sound for a realistic movie experience
- External subwoofer adds thrill to the action

PHILIPS

Soundbar speaker
3.1 CH wired subwoofer Bluetooth®, HDMI ARC, 150 W

HTL2183B/12

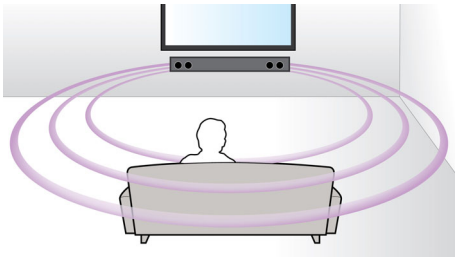

Highlights

Centre-channel speaker

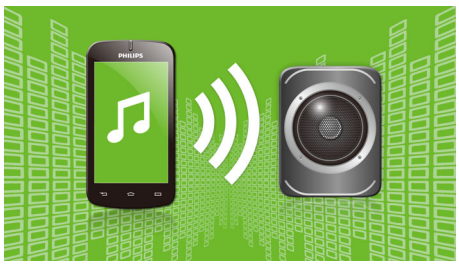

A centre-channel speaker dedicated especially to voice frequencies anchor speech to the centre of the screen. This offers improved voice positioning and clarity, increasing immersion in movies.

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Bluetooth

Bluetooth is a short-range wireless communication technology that is both stable and energy efficient. The technology allows for easy wireless connection to other Bluetooth devices, so you can play your favourite music from any smartphone, tablet or laptop, including the iPod or iPhone, with a Bluetooth-enabled speaker.

USB playback

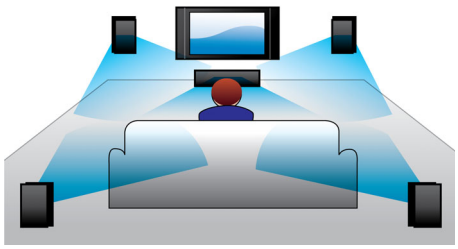

Simply plug in your device to the USB port on your Philips Soundbar speaker. Your digital music will be played directly from the device. Now you can share your favourite moments with family and friends.

Audio in

Audio in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your Philips home cinema system. Simply connect your audio device to the Audio in jack to enjoy your music with the superior sound quality of the Philips home cinema system.

Dolby Digital and Pro Logic II

A built-in Dolby Digital decoder eliminates the need for an external decoder by processing all six channels of audio information to provide a surround sound experience and an astoundingly natural sense of ambience and dynamic realism. Dolby Pro Logic II provides five channels of surround processing from any stereo source.
