

Philips
Wireless Detachable Speaker base

• for Philips TVs

PTA860/00

Powerful Sound solutions

Moving sound

Generating voluminous sound from minimal dimensions, the dark chrome Wireless Speaker Base fits in seamlessly with the slim design of the 8600 series detachable speaker. Together they create a richer sound wherever you place them in the room.

Benefits

Designed around you

• Dark chrome aluminium stand makes a timeless statement
• Modern design complements today's interior

See how beautiful sound can be

• Extend your sound system to 20 speakers with 70 watts
• Freedom to place your speaker anywhere in the room

Features

Dark chrome stand

From top to bottom, this is a TV with presence. Our designers used dark chrome for the stand to match the solid metal detailing of your TV, because they understand real metal makes a quality statement.

Extend your sound system

Surround yourself in beautiful sound by extending the 8600 speaker system with a pair of speaker bases. This union combines the power of two speakers at the back of the TV with 16 microdrivers in the left and right of the detachable speakers, and two mid-range speakers in the speaker stands. Altogether they deliver a broad, rich sound spectrum with pure, balanced sound quality.

PHILIPS

Full freedom

Simply place the speakers where you want. The stands allow wireless streaming of high quality sound from your TV, giving you the freedom to create a truly captivating sound experience anywhere in your home.

Modern design

Designed with a contemporary look to blend with your décor. Because your TV should look as beautiful off as it does on.
