Highlights

For kids

This Philips and Disney light for your child's bedroom creates an environment which encourages children to indulge in what they enjoy most – fun and creativity! A place where your child can study, play and sleep accompanied by their favourite Disney character. This light is designed to be safe for your child.

Cool to the touch

This light is completely safe for children because it is made of child-friendly materials and uses LED light, which is always cool to touch.

Durable and drop-proof

This light is durable and drop-proof, does not have sharp edges and is made out of durable materials. Making sure your kids will have imaginative moments without any worries.

Reading light

SleepTime Mickey is great for soothing bedtime stories that help children to fall asleep. The diffused warm white light of SleepTime Mickey is gentle and provides the perfect light output for good visibility while reading.

Stay in bed — moon indicator

At bedtime, the right button on SleepTime Mickey's belly lights up showing a moon. The moon provides a subtle night light reassuring your child during the night and indicating that when the moon is there, he/she needs to stay in bed.

Time to play — sun indicator

When it is ok to get out of bed, according to the timer you have set on the bottom, the left button on Mickey's belly will light up. A sun will show, letting your child know that it is ok to get out of bed.

Fun and easy on/off switch

Press on the top of SleepTime Mickey's head and it lights up with a gentle warm white reading light.

Easy to set up morning time

With the intuitive on-product control at the bottom of the lamp, parents can set the clock and timer at the time they think it's OK for their child to get out of bed and start their day. The interface is easy and simple to use.

High quality LED light

SleepTime has an extremely low power consumption of only 2 x 1W, while providing a high light output (140 Lumen) at the same time. With a light temperature of 2700 Kelvin, SleepTime provides gentle and soothing warm white light.

Energy saving

The LED technology used in SleepTime has a long-lasting lifetime of at least 20,000 hours. Using only a few watts of power, SleepTime is, therefore, an extremely energy efficient reading, night and morning light.

Specifications

Design and finishing

- Material: synthetics
- Colour: black

Extra feature/accessory incl.

- On/off switch on article
- LED integrated
- UK plug included

Product dimensions and weight

- Height: 22.5 cm
- Length: 17.1 cm
- Width: 13.6 cm
- Net weight: 0.452 kg

Technical specifications

- Mains power: Range 220 V–240 V
- Bulb technology: LED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 2 W
- Light colour: warm white
- Number of bulbs 2: 1
- Fixture dimmable: No
- Wattage bulb included 2: 0.01 W
- LED
- Maximum wattage replacement bulb 2: 0.01 W
- Built-in LED
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: III — safe extra low voltage

Service

- Warranty: 2 year(s)
