

wireless portable speaker

- Bluetooth® and NFC
- with MULTIPAIR
- Rechargeable battery
- White

BT3600W/00

Small size, great sound

Great sound in a body so slim it can fit in anywhere. Built-in NFC makes device pairing just a tap away, and Bluetooth multipair lets you swap music from two different devices instantly.

Benefits

Impressive sound

- Anti-clipping function for loud, distortion-free music
- Advanced audio performance with a slim design
- Impressive with 10 W RMS

Simplicity in use

- Wireless music streaming via Bluetooth
- Swap music instantly between 2 devices with MULTIPAIR
- Built-in microphone for hands-free phone calls
- Audio-in for easy connection to almost any electronic device
- One-Touch with NFC-enabled smartphones for Bluetooth pairing

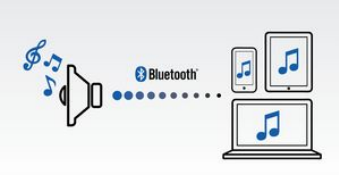

Designed for grab and go

- Built-in rechargeable battery for music playback anywhere

PHILIPS

Features

Wireless music streaming

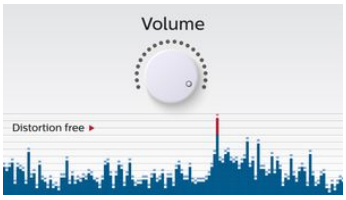

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

Swap music between 2 devices

Pair with 2 smart devices simultaneously so you can stream music from whichever device you want, without the hassle of un-pairing and re-pairing. To play a song on a different device, pause the song on the original device first and then play the new song on a different device to take over. It's perfect for sharing music with friends, at parties, or just playing different songs stored on different devices. Let friends and family pair at the same time, so you can swap between each other's music easily.

Anti-clipping function

Anti-Clipping lets you play music louder and keeps the quality high, even when the battery is low. It accepts input signals from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This speaker handles anti-clipping through a dedicated audio limiter IC. This monitors the musical signal as it goes through the amplifier and keeps peaks within the amp's range, preventing the audio distortion caused by clipping without affecting loudness. A speaker's ability to reproduce musical peaks decreases along with battery power, but anti-clipping reduces peaks caused by low battery.

Built-in rechargeable battery

Play music out loud - anytime, anywhere. The built-in rechargeable battery lets you enjoy your personal music without the fuss of tangled power cords and the inconvenient search for an electrical socket. Enjoy great music with the freedom of portability now.

Built-in microphone

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.

Audio-in

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Compatibility

iPad	iPad 1	iPhone	iPad mini 3
	iPad 2		iPhone 3
	new iPad		iPhone 3GS
	iPad mini		iPhone 4
	iPad with Retina display		iPhone 4S
