Art No. EM0002

Energy cost meter

100% Keep an eye on your energy consumption and energy costs; this way, you can reveal hidden "power guzzlers"; measures the power consumption of the connected device using your individual power tariff to calculate our energy costs when the device is switched on and when it is standby mode. By replacing these devices energy-saving devices, you can lower your power consumption and save money. Displays watts, total power consumption and total cost. Can save cost, tariffs and power consumption.

Feature:
- Display current power.
- Display and memory accumulative total power quantity.
- Display and memory total power charge of price.

Technical Specification:
- Power supply: 230V~50Hz
- Max. load: 16(2)A, 3680W
- Min. power display: 0.1W
- Measure power accuracy: +/-2% or +/-2W(0-100W);+/-2%(100-3680W)
- Power quantity accuracy: +/-2%
- Min. power quantity display: 0.01KWH
- Accumulative power quantity range: 0.00-9999.9KWH
- Price range: 0.00-9999
- Outlet child protection
- Built-in 3.6V rechargeable Battery (NI-MH)
- Device Power Consumption: < 0.5W
- Accuracy: +/- 2%

Packaging Information:
- Packing Dimension: 205x110x80mm
- Packing Weight: 0.098kg
- Carton Dimension: 65x42x23mm
- Carton Q'ty: 50pcs
- Carton Weight: 7.9kg
