Light anywhere you need it

Convenient portable light for your home

Personalize your home lighting. This stylish customizable Philips Portable Table Light displays your favorite photographs or pictures as it lights. Battery operated and lightweight, it's easy to move around your home anywhere you like.

Benefits

Sustainable light solutions

- High quality LED light

Special characteristics

- On/off switch on article
- Lightweight and portable for complete flexibility
- No cables or power socket required for complete flexibility
- Display your favorite photos with light

PHILIPS

Features

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

Lightweight and portable

Battery operated and lightweight, this portable lamp can be used anywhere in the home. Bring light to tricky-to-reach areas, such as dark corners, stairwells and passageways, or supplement the general illumination provided by overhead lighting. Works great as a reading, bedside or night light too, with a stylish design that complements any decor.

Convenience out of the box

Battery operation means no trailing cables to spoil your décor or trip over. And since you don't need a power socket, you can place the lamp anywhere you need light. It's convenience straight out of the box.

Personalize your lighting

It's easy and fun to display your favourite pictures. Print the photo you want to use to standard printing paper using the online template. Then simply slip it into the slot provided behind the glass with the image facing outwards.
