ODD USB FLASH DRIVE

ODD USB 3.0 allows you to use one USB flash drive with various desktop and mobile devices. Equipped with two USB connectors – type A and type-C™, ODD allows you to transfer data between PCs and laptops with a classic type A USB port and the latest ultrabooks, phones and tablets, equipped with a versatile USB type-C port.

INTERFACE:

3.0
USB 3.0

AVAILABLE CAPACITIES:

16 - 64 GB

SMALL AND BIG AT THE SAME TIME

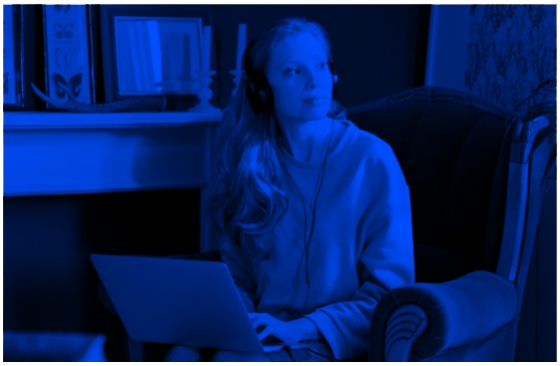

Thanks to the combination of traditional USB type A and USB type-C connectors, you can easily transfer data between devices equipped with both traditional and the new connector standard. Due to the growing popularity of the USB type-C connector, USB ODD will become more and more practical with each day.

SPEED OF OPERATIONS (USB 3.0):

60 MB/s
MAX. READ SPEED

20 MB/s
MAX. WRITE SPEED

HIGHEST QUALITY = LIFETIME WARRANTY

We manufacture ODD using only the best components and during the production process the product passes through multi-stage tests and rigorous quality control. Thanks to this, ODD is covered under lifetime manufacturer's warranty.
