Specifications

Country of origin
• China

Features
• BPA-Free

Highlights

Antic-colic system (straight)

Anti-colic valves flex to allow air into the bottle and help prevent gas from going into the baby's tummy, hence reduces colic.

Clean, Hygienic and Safe Glass

Made from borosilicate glass, this bottle is hygienic and easy to clean. Due to bottle's heat resistant feature, Moms can use boiling water or Philips Avnet sterilizer to sterilize it . assuring you a safe feeding experience.

Easy feeding

The soft ribbed design of the nipple makes it easy for baby's mouth to seal on the teat, allowing easy and comfortable feeding.
