The right light makes the moment

The more you dim, the warmer the light

Philips LEDs with a warm glow dimming effect offer a new experience in dimmable LEDs. Unlike standard LEDs, these Philips lamps offer a dimmable warm glow in a familiar shape that lets you go from everyday functional lighting, to inviting, to cosy.

Benefits

Pure and elegant design
- Perfect fit and high-quality finishing

Instant brightness
- Instant light when switched on

Save on energy
- Saves up to 80% energy

Objects are seen in their true, natural colours
- High colour rendering (CRI > 80) for vivid colours

Create desired ambience
- The more you dim, the warmer the light

Features

Beautiful, switched on and off

Familiar shapes are a perfect fit for your fixtures: we have retained the shapes and appearance of the classic light bulb.

PHILIPS

LED

High colour rendering (CRI>80)

The colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colours truly and naturally.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.

WarmGlow dimming

Unlike other dimmable LED lamps, these new WarmGlow bulbs, with their familiar shape, offer a perfect warm dimming experience, enabling you to switch from everyday functional lighting to an inviting, warm ambience. The more you dim, the warmer the light and the lower the light level. You can now customise your room for a variety of tasks and be sure you will always have the right light.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Shape	Bulb
Cap/fitting	E27
Voltage	220–240V/50–60 Hz V
Dimmable	Yes

Power consumption

Wattage	8.5 W
Wattage equivalent	60 W
Energy efficiency label	A+
Power consumption per 1000h	8.5 kW·h

Light characteristics

Light output	806 lumen
Colour	Warm White
Colour temperature	2200-2700 K
Light effect/finish	Warm White
Colour rendering index (CRI)	80
Starting time	< 0.5 s
Application	Soft light

Durability

Lifetime of lamp	15000 hour(s)
Number of switch cycles	50000
Lumen maintenance factor	0.7
Average life (at 2.7 hrs/day)	15 year(s)

Bulb dimensions

Height	110 mm
Width	60 mm

Other characteristics

Lamp current	45 mA
Range	WarmGlow
