Specifications

Bulb characteristics
- Shape: Bulb
- Cap/fitting: E27
- Voltage: 220–240V/50–60 Hz V
- Dimmable: No

Power consumption
- Wattage: 10 W
- Wattage equivalent: 75 W
- Energy efficiency label: A+
- Power consumption per 1000h: 10 kW·h

Light characteristics
- Light output: 1055 lumen
- Colour: Cool Daylight
- Colour temperature: 6500 K
- Light effect/finish: Cool Daylight
- Colour rendering index (CRI): 80
- Starting time: < 0.5 s
- Application: Soft light

Durability
- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions
- Height: 110 mm
- Width: 60 mm

Other characteristics
- Lamp current: 95 mA

Highlights

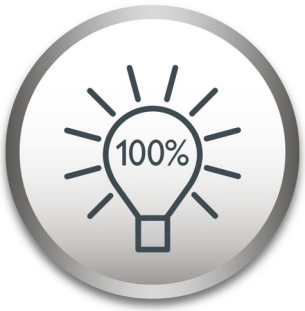

Beautiful, switched on and off
Familiar shapes are a perfect fit for your fixtures: we have retained the shapes and appearance of the classic light bulb.

High colour rendering (CRI>80)

The colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colours truly and naturally.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.

6500K [LED lamps]
Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.
