Save on energy
- Saves up to 80% energy

Create desired ambience
- Dimmable***

Features

Warm white light (2700 K)

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.

LEDClassic (filament)

LED Classic bulbs are based on standard LED energy-saving technology, except the LEDs are arranged in such a way as to mimic classic incandescent bulbs. Now you can enjoy this retro-style bulb with state-of-the-art technology.

Omnidirectional light

This innovative lens delivers omni-directional light distribution, preventing the shadow that normally appears at the beam spread edge. The result? Natural, warm white light all around.

Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.

Dimmable***

This lamp can be used with most dimmers to create your desired ambience with smooth dimming to 10% of full light levels.
