Warm white light, no compromise on light quality

Create a warm, inviting ambience

Philips LED light bulbs provide a beautiful, warm white light, an exceptionally long life and immediate, significant energy savings. With a pure and elegant design, this bulb is the perfect replacement for your frosted traditional bulbs.

Benefits

Create a warm atmosphere
- True incandescent-like warm white light (2700 K)

Pure and elegant design
- Perfect fit and high-quality finishing

Instant brightness
- Instant light when switched on

Save on energy
- Saves up to 80% energy

Objects are seen in their true, natural colours
- High colour rendering (CRI > 80) for vivid colours

PHILIPS

Features

Warm white light (2700 K)

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

High colour rendering (CRI>80)

The colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colours truly and naturally.

Beautiful, switched on and off

Familiar shapes are a perfect fit for your fixtures: we have retained the shapes and appearance of the classic light bulb.

Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Shape	Bulb
Cap/fitting	B22
Voltage	220–240V/50–60 Hz V
Dimmable	No
Voltage	220–240 V

Power consumption

Wattage	11 W
Wattage equivalent	75 W
Energy efficiency label	A+
Power consumption per 1000h	11 kW·h

Light characteristics

Beam angle	200 degree
Colour	Warm White
Colour temperature	2700 K
Light effect/finish	Warm White
Colour rendering index (CRI)	80
Starting time	< 0.5 s
Application	Soft light

Durability

Lifetime of lamp	15000 hour(s)
Number of switch cycles	50000
Lumen maintenance factor	0.7
Average life (at 2.7 hrs/day)	15 year(s)

Other characteristics

Power factor	0.5
Lamp Classification Risk Group	RG0
