- Easily operate your machine via the intuitive user interface
- External milk container included, easy to clean and store
- Remove milk residues with our deep MILK CLEAN function
- Removable brewing group for high hygiene
- Auto-cleaning cycle program

PHILIPS

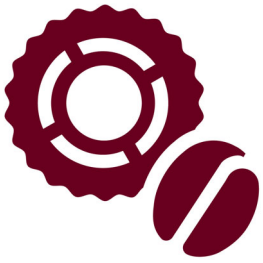

Highlights

One touch drinks

You can get a perfectly brewed espresso right in your cup from freshly ground beans, simply push a button and wait a few seconds. Now, with the new Easy Cappuccino System, your one touch cappuccino has never been so easy. You can also have two coffee cups at the same time thanks to the 2x function.

100% ceramic burr grinders

Ceramic material ensures long-lasting performance and silent operation while not deteriorating. This means you coffee will be always ground like the first time, delivering the best of your beans for more than 15.000 cups.

Quick heat boiler

Say goodbye to lukewarm coffee. The Quick heat boiler ensures a hot coffee and cappuccino for you family from the first cup, in no time.

Aroma Strength selector

You will always get a perfect espresso or cappuccino brewed to your personal preference thanks to the strength selector. This function allows you to quickly choose the quantity of coffee that will be ground, to obtain a stronger or milder espresso. Enjoy a superb coffee that fits your taste, all at the touch of a button.

MEMO function

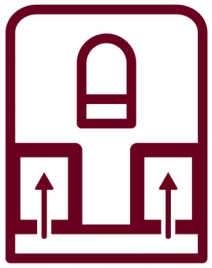

You will always get a coffee brewed to your personal preference thanks to our memo function, which allows you to adjust and save the coffee and cappuccino length in your cup. With this function, your machine will know exactly how you prefer your coffee and cappuccino.

Adjustable grinding settings

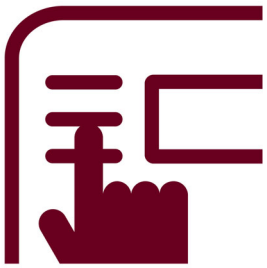

You can adjust the fineness of the grinders at 5 different levels. Choose the finest grinding for a full bodied espresso, all the way up to the coarsest for a lighter coffee, all according to your preferred taste.

Small size and frontal access

It doesn't matter how big your kitchen is: this machine fits even the smallest spaces, and it is extremely convenient as you can access the water and waste containers from the front. Nothing stands in the way of your enjoyment!

Intuitive user interface

The simple and intuitive user interface, with its large buttons, helps you to easily interact with your machine and the led indicators give you clear feedback on what is happening.

External milk container

Enjoy your creamy cappuccino with the milk you prefer thanks to the external milk container. Easily unplug it from the machine and put it in the fridge for long lasting freshness. Cappuccino with every kind of milk has never been so easy.
