Switch light settings without switching bulbs

Works with your existing switch

Sometimes you feel like a change in ambiance to suit whatever you're doing. With a Philips SceneSwitch LED bulb, you can easily change the setting with your existing switch. No dimmer or additional installation is required.

Benefits

Create a warm atmosphere
- Beautiful, switched on and off
- High colour rendering (CRI > 80) for vivid colours

Easy to enjoy
- Avoid the hassle of changing bulbs

Instant brightness
- Instant light when switched on

Sustainable choice
- Lasts up to 15 years
- Safe for any room and convenient to recycle

Comfortable LED light that is easy on your eyes
- Designed for the comfort of your eyes

PHILIPS

Features

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Lasts up to 15 years

With a lifetime of up to 15,000 hours, this Philips LED bulb will ensure your desired atmosphere for up to 15 years.*

No hazardous substances

Philips LED lights contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.

Beautiful, switched on and off

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low value produce a warm, more cosy light, while those with a high Kelvin value, create a cool, more energising light.

Avoid the hassle of changing

The durable alternative to incandescent light bulbs, Philips LED bulbs can be installed and forgotten about, maintaining their beautiful light beam for years and years to come.

High colour rendering (CRI>80)

The colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colours truly and naturally.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

Specifications

Bulb characteristics

Shape	Bulb
Cap/fitting	E27
Dimmable	No
Voltage	220–240 V

Power consumption

Wattage	9.5 W
Wattage equivalent	70 W
Energy efficiency label	A+
Power consumption per 1000h	9.5 kW·h

Light characteristics

EyeComfort	Eye Comfort
Light output	806 lumen
Colour temperature	6500 - 3000 K
Light effect/finish	White
Colour rendering index (CRI)	80
Starting time	<0.5 s
Warm-up time to 60% light	Instant full light
Colour	Cool Daylight / Warm White

Durability

Lifetime of lamp	15000 hour(s)
Number of switch cycles	100000
Lumen maintenance factor	0.7
Average life (at 2.7 hrs/day)	15 year(s)

Bulb dimensions

Height	111 mm
Width	61 mm

Other characteristics

Mercury content	0 mg
Power factor	0.5
Lamp current	100 mA
Range	SceneSwitch

Rated values

Rated power	9.5 W
Rated luminous flux	806 lumen
Rated lifetime	15000 hour(s)
