Highlights

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

No hazardous substances
Philips LED lights contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.

High color rendering (CRI>80)

The color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colors truly and naturally.

Reliable quality
Philips keeps their promises about LED light performance. You can trust what the Philips packaging is saying about light output, lifetime, and wattage equivalent to incandescent lamps.
