Steam generator iron
Max 6 bar pump pressure Up to 350 g steam boost, 1.8 L detachable watertank

GC8711/20

Highlights

1.8 L detachable water tank

The watertank can be removed to be refilled easily under the tap. The large filling hole makes the refilling fast.Thanks to the 1.8 L watertank capacity, you can iron up to 2 hours continuously without any refills.

ProVelocity Steam Engine

Water is transferred from the water tank to the iron by a high pressure pump. A lot of water travels inside of steam chamber at very high speed. It enables very powerful and constant steam all the time to come out from the soleplate without water condensation;

Continuous steam

The more steam, the faster the ironing. The unique technology in a Philips steam generator iron generates powerful steam making ironing easier, better and faster.

Energy saving

By using the ECO mode , with reduced amount of steam, you can save energy without compromising on the ironing results.

Lighter weight steam generator

Thanks to the revolutionnary ProVelocity technology, we made your steam generator iron more compact than ever before. The compact steam generator fits easily on your ironing board making your ironing more convenient. In addition, your steam generator takes much less storage space.

Max 6 bar pump pressure

The more steam, the faster the ironing. Powerful continuous steam is generated which penetrates deep inside the garments making ironing faster and better. Steam amount can be regulated to fit your needs.

OptimalTEMP technology

"Now you can iron from jeans to silk with no temperature setting required. Guaranteed no burn on all ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust temperature 2) Compact ProVelocity steam engine delivers more steam for ironing faster. It enables compact design of your steam genreator for easier storage"
